

Less paperwork between the job site and the office

NeodyAI for Construction & trades · Contractors, builders, plumbers, electricians,
field services

Where the time goes in construction and trades

Change orders go unbilled

Extra work agreed on site never makes it into a signed change order.

Reports on paper

Daily job reports, incidents and timesheets reach the office late or incomplete.

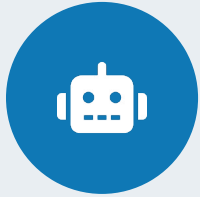

Quotes compared by hand

Supplier quotes and proposals are built and checked line by line.

NeodyAI takes on this work with AI that prepares, checks and chases, while your people decide.

AI does the work. Your team stays in control.

AI does the work

Reads documents, checks them against your rules, drafts and follows up across the systems you already use.

Your people decide

It runs beside your team first. Autonomy is earned on measured agreement, and taken back automatically when quality drops.

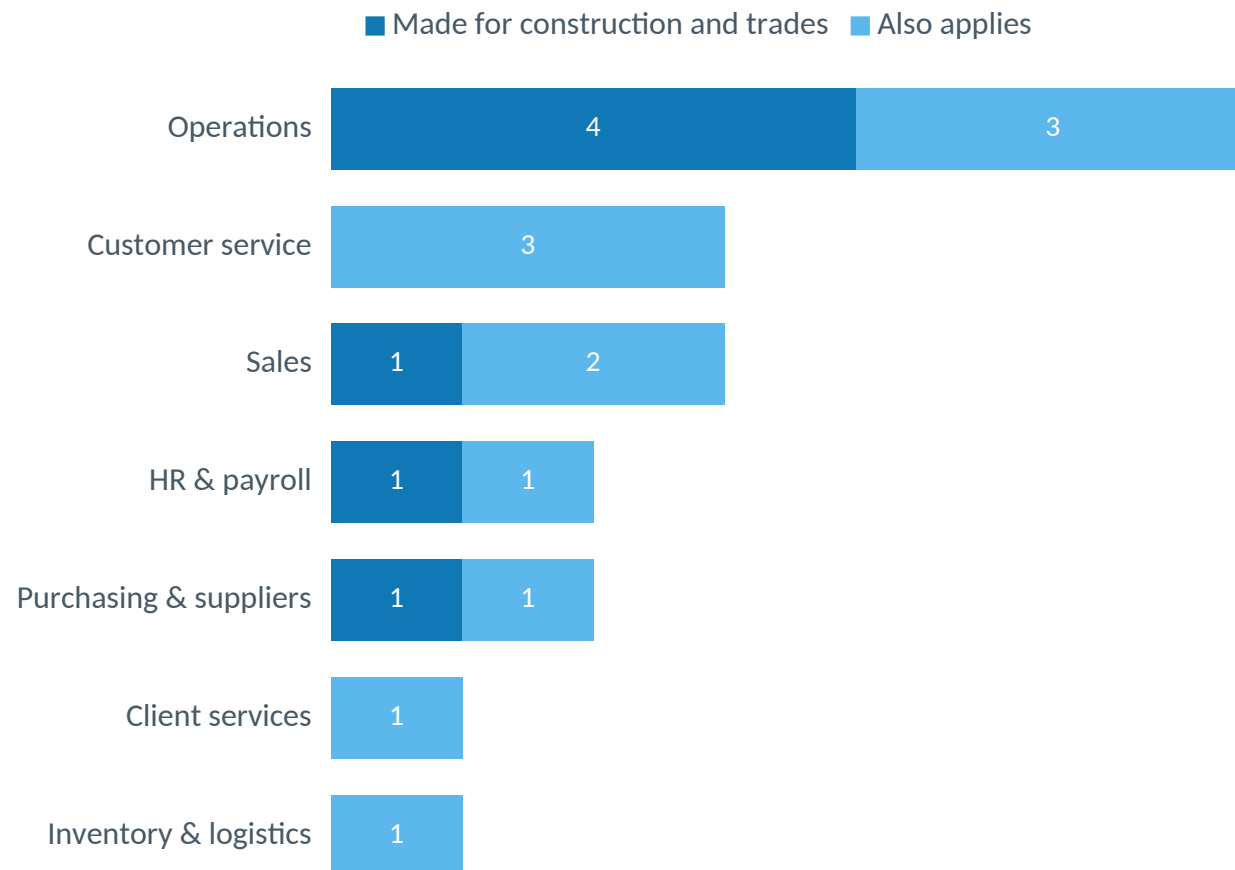

Your data stays protected

Sensitive fields are protected before any model sees them, and every action is on the record.

19 use cases for construction and trades

Use cases by department

7

made for construction and trades

6

high value at low or medium effort

1

ready to run or start from a template

Every use case is on a card in the appendix.

Where we'd start

OPERATIONS

Change orders

Change requests captured, priced, signed and billed, so extra work isn't done for free.

Intake & extract → Validate → Follow up

Value high · effort medium · Guide

OPERATIONS

Daily job reports

Site photos, notes and timesheets turned into the daily report for the client and the office.

Intake & extract → Draft

Value medium · effort low · Guide

PURCHASING & SUPPLIERS

Supplier quote comparison

Quotes from several suppliers read and compared like for like, with a recommendation.

Intake & extract → Consolidate → Recommend & optimise

The work AI takes on

9

Follow up

Chases people until the gap is closed

9

Intake & extract

Reads emails, PDFs and forms

6

Draft

Writes the first version for a person to edit

5

Consolidate

Pulls sources together and matches them

5

Validate

Checks documents and data against your rules

4

Monitor & alert

Watches and flags what needs attention

Your sensitive data stays protected

Sensitive data these use cases touch

4

Personal information

3

Business confidential

2

Health information

2

Trade secrets

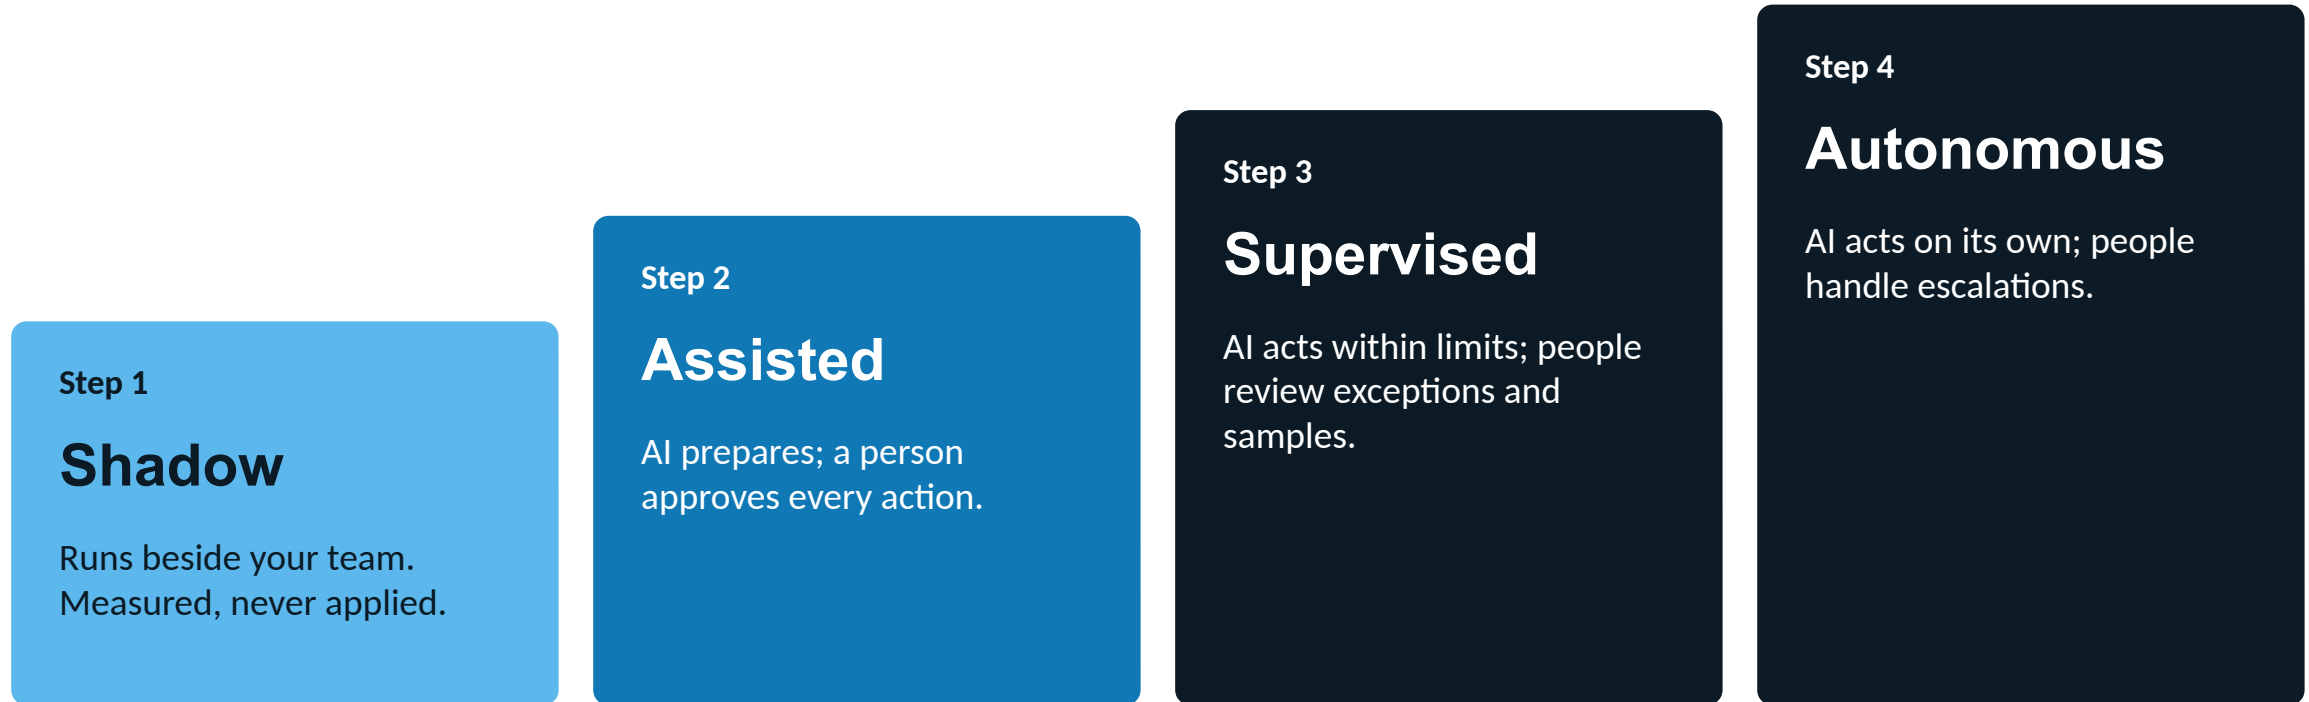

Rules they fall under

HIPAA · 1

OSHA · 1

Your team approves until the AI has earned more

Moves up on evidence: enough decisions, high agreement with your people, an approver who didn't build it

Steps back automatically: when quality drifts, an incident fires, or the AI model changes

Works with the systems you already use

How to get started

01

Try the free workflows

Run sample processes free, including one on protected sample data

02

Pick your first use case

We'd suggest Change orders, or the pain that costs you most

03

Run it beside your team

Nothing is applied until your people agree with its work

04

Add the next one

The second use case is faster: connections and approvals already exist

Use cases made for construction and trades (1 of 2)

OPERATIONS

Medium risk

Change orders

Change requests captured, priced, signed and billed, so extra work isn't done for free.

OPERATIONS

Low risk

Daily job reports

Site photos, notes and timesheets turned into the daily report for the client and the office.

[Intake & extract](#) → [Draft](#)

Value medium · effort low · Guide

OPERATIONS

Medium risk

Job scheduling & dispatch

Jobs scheduled and crews dispatched by skill, location and urgency; customers kept informed.

[Route](#) → [Recommend & optimise](#) → [Follow up](#)

Value medium · effort medium · Guide

OPERATIONS

Medium risk

Safety incident reports

Incidents and near-misses recorded completely and on time; the OSHA log kept up.

[Intake & extract](#) → [Validate](#) → [Draft](#)

Value medium · effort medium · Guide · OSHA

SALES

Medium risk

Proposal drafting

First drafts of proposals and statements of work from the brief and past winning proposals.

[Research](#) → [Draft](#)

Value medium · effort medium · Guide

HR & PAYROLL

Medium risk

Timesheet checks

Timesheets checked against schedules and rules (overtime, breaks) before payroll.

Use cases made for construction and trades (2 of 2)

PURCHASING & SUPPLIERS

Low risk

Supplier quote comparison

Quotes from several suppliers read and compared like for like, with a recommendation.

Intake & extract → Consolidate → Recommend & optimise

Value medium · effort medium · Guide

Also applies, from other industries (1 of 2)

OPERATIONS

Medium risk

Shop work order from the order

Each accepted order turned into a shop work order: cut list, material, operations and due date, checked against the quote.

Intake & extract → Draft → Execute

Value high · effort medium · Guide

OPERATIONS

Medium risk

Licence & permit renewals

Licences, permits and certificates tracked, with renewals started well before they lapse.

Monitor & alert → Follow up

Value medium · effort medium · Template ready

OPERATIONS

Medium risk

SOP & work-instruction answers

Staff ask how to do a task and get the answer from your SOPs and manuals, with the page cited.

Answer

Value medium · effort low · Guide

CUSTOMER SERVICE

Medium risk

Repair intake & estimate (rebuild or replace)

Photos and measurements of a worn part turned into a repair job: rebuild (e.g. reflight) or replace, an estimate and a ship-in date, with the customer kept informed.

Intake & extract → Consolidate → Draft → Follow up

Value high · effort medium · Guide

CUSTOMER SERVICE

High risk

Appointment reminders & no-shows

Reminders, confirmations and rebooking for missed appointments.

Follow up → Converse

Value medium · effort low · Guide · HIPAA

CUSTOMER SERVICE

Low risk

Warranty claims

Warranty claims checked against serial, dates and terms; approved, rejected with reason, or routed.

Intake & extract → Validate → Route

Value medium · effort medium · Guide

Also applies, from other industries (2 of 2)

SALES

Medium risk

Custom quote intake (specs & drawings)

Quote requests from the web form, email or a drawing read into one spec (diameter, pitch, thickness, material, length, ends); anything missing is asked for before it reaches the estimator.

[Intake & extract](#) → [Validate](#) → [Follow up](#)

Value high · effort low · Guide

SALES

Medium risk

Quote pricing from current steel costs

A price built from today's steel and wear-option costs, shop hours and freight, drafted for the estimator to approve, with the margin shown.

[Consolidate](#) → [Recommend & optimise](#) → [Draft](#)

Value high · effort medium · Guide

HR & PAYROLL

Medium risk

Training & certification tracking

Required training and licences tracked per person; reminders before they lapse.

[Monitor & alert](#) → [Follow up](#)

Value medium · effort medium · Guide

PURCHASING & SUPPLIERS

Low risk

Steel price & surcharge watch

Mill and service-centre prices watched; quotes and price lists flagged when steel moves enough to need a surcharge.

[Monitor & alert](#) → [Analyse history](#)

Value medium · effort low · Guide

CLIENT SERVICES

Medium risk

Implementation & integration projects

Each client implementation's plan, open items and blockers pulled from tickets, mail and meetings; slipping milestones flagged and owners chased.

[Consolidate](#) → [Monitor & alert](#) → [Follow up](#)

Value high · effort medium · Guide

INVENTORY & LOGISTICS

Medium risk

Freight quotes & shipping

Freight quotes for long or heavy items gathered from carriers, the best option picked, pickup booked, and the customer sent tracking.

[Consolidate](#) → [Recommend & optimise](#) → [Follow up](#)
