

Keep shelves full and margins tight, without the paperwork

NeodyAI for Retail & convenience stores · Shops, bodegas and convenience stores

Where the time goes in retail

Invoices don't match orders

Short shipments and price changes are paid without anyone noticing.

Prices spread across distributors

Comparing price lists from several suppliers is done by hand.

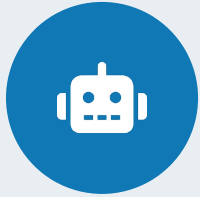

Reorders are guesses

Stock runs out or piles up because reorders follow memory, not sales.

NeodyAI takes on this work with AI that prepares, checks and chases, while your people decide.

AI does the work. Your team stays in control.

AI does the work

Reads documents, checks them against your rules, drafts and follows up across the systems you already use.

Your people decide

It runs beside your team first. Autonomy is earned on measured agreement, and taken back automatically when quality drops.

Your data stays protected

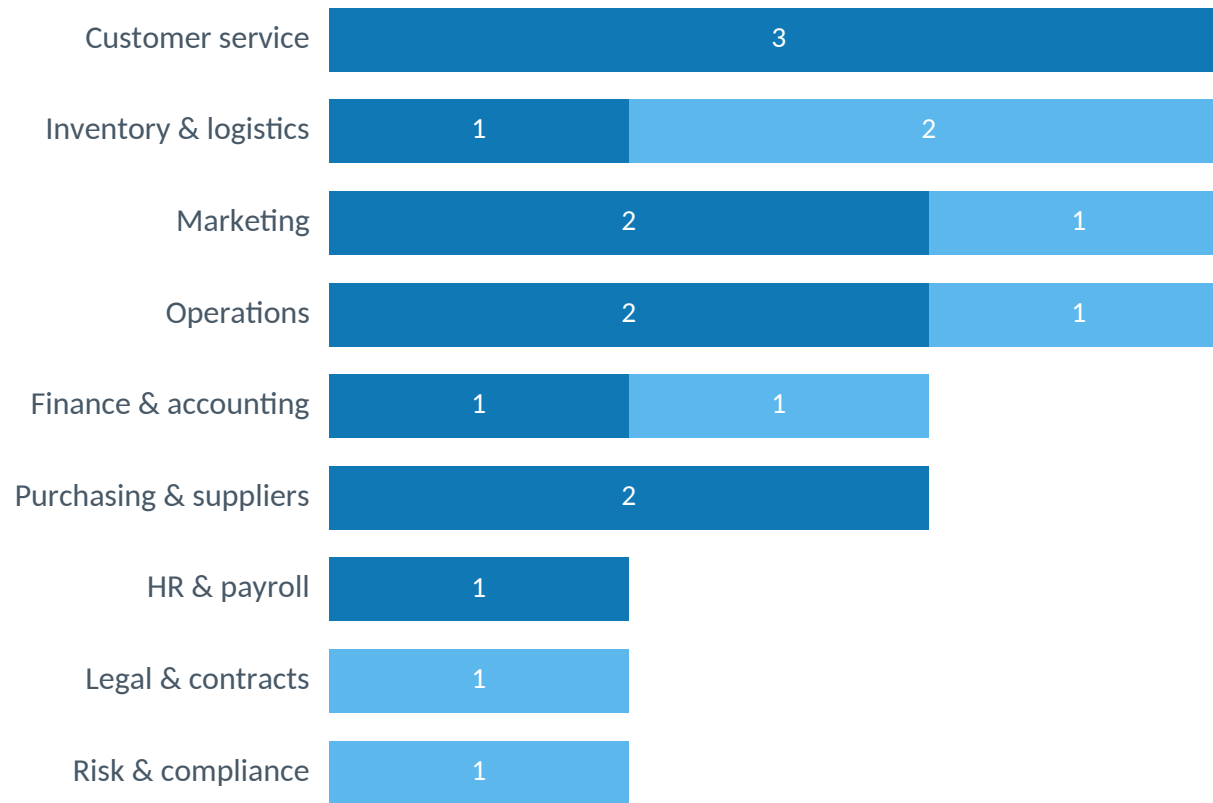

Sensitive fields are protected before any model sees them, and every action is on the record.

Where we'd start

1

PURCHASING & SUPPLIERS

Supplier invoice vs order

Each delivery invoice checked against what was ordered and delivered: short, wrong price, not ordered.

Intake & extract → Validate → Follow up

Value medium · effort low · Template ready

2

PURCHASING & SUPPLIERS

One price list across distributors

Distributors' price lists combined so the cheapest source for each item is obvious.

Intake & extract → Consolidate

Value medium · effort medium · Template ready

3

CUSTOMER SERVICE

Online review replies

Replies to online reviews drafted in your voice for a quick approve.

Draft

The work AI takes on

7

Intake & extract

Reads emails, PDFs and forms

6

Consolidate

Pulls sources together and matches them

5

Analyse history

Finds patterns in past activity

5

Validate

Checks documents and data against your rules

4

Draft

Writes the first version for a person to edit

4

Follow up

Chases people until the gap is closed

Your sensitive data stays protected

Sensitive data these use cases touch

How to get started

01

Try the free workflows

Run sample processes free, including one on protected sample data

02

Pick your first use case

We'd suggest Supplier invoice vs order, or the pain that costs you most

03

Run it beside your team

Nothing is applied until your people agree with its work

04

Add the next one

The second use case is faster: connections and approvals already exist

Use cases made for retail (1 of 2)

CUSTOMER SERVICE

Medium risk

“Where is my order?”

Order and delivery status answered from the order and carrier systems, on email or chat.

Answer → Converse

Value medium · effort medium · Guide

CUSTOMER SERVICE

Low risk

Online review replies

Replies to online reviews drafted in your voice for a quick approve.

Draft

Value medium · effort low · Guide

CUSTOMER SERVICE

Medium risk

Returns & RMAs

Return requests checked against the policy and warranty, approved or routed, and the RMA issued.

Intake & extract → Validate → Route → Execute

Value medium · effort medium · Guide

INVENTORY & LOGISTICS

Low risk

Reorder suggestions

What to reorder, how much and from whom, from sales and stock.

Analyse history → Recommend & optimise

Value medium · effort medium · Template ready

MARKETING

Medium risk

Delivery-app menu updates

Menus and prices kept in step across delivery apps from one list.

Value medium · effort low · Template ready

HR & PAYROLL

Medium risk

Timesheet checks

Timesheets checked against schedules and rules (overtime, breaks) before payroll.

[Intake & extract](#) → [Validate](#)

Value medium · effort medium · Guide

Also applies, from other industries (1 of 2)

INVENTORY & LOGISTICS

Medium risk

Freight quotes & shipping

Freight quotes for long or heavy items gathered from carriers, the best option picked, pickup booked, and the customer sent tracking.

[Consolidate](#) → [Recommend & optimise](#) → [Follow up](#)

Value medium · effort medium · Guide

INVENTORY & LOGISTICS

Medium risk

Shipment exceptions

Late, damaged or stuck shipments spotted early; customers and carriers contacted.

[Monitor & alert](#) → [Follow up](#)

Value medium · effort medium · Guide

MARKETING

Medium risk

Cash-back rewards offers & settlement

Which offers drive card use, by program and merchant; rewards calculated, settled with merchants and reconciled to what cardholders received.

[Analyse history](#) → [Recommend & optimise](#) → [Consolidate](#)

Value medium · effort medium · Guide

OPERATIONS

Medium risk

Payment transaction monitoring

Transaction flows on the payment platforms watched for failures, latency and unusual patterns; clients and on-call engineers alerted.

[Monitor & alert](#) → [Analyse history](#)

Value high · effort medium · Guide · PCI DSS

FINANCE & ACCOUNTING

Low risk

Freight invoice audit

Carrier invoices checked against rates, accessorials and the shipment; overcharges disputed.

[Intake & extract](#) → [Validate](#) → [Consolidate](#)

Value high · effort medium · Guide

LEGAL & CONTRACTS

Medium risk

Lease abstraction

Key terms, dates and obligations pulled out of leases into a summary you can search.

[Intake & extract](#) → [Draft](#)

Value high · effort medium · Guide

Also applies, from other industries (2 of 2)

RISK & COMPLIANCE

Medium risk

Card fraud & velocity monitoring

Card activity watched for velocity, geography and merchant patterns; likely fraud routed to an analyst with the evidence, the rest released.
